Another good feature of the rain, so we are told by the "bug experts" is that it will lessen the hazard of the threatened grasshopper menace.

Garden growth is now making rapid strides. We'll soon see if those seed catalogues were telling the truth.

People of Paraguay cheered on Wednesday following declaration of war against Bolivia. If they make it a modern war with poison gas, death rays, airplane bombs, and all the latest engines for wholesale human massacre, there won't be so much cheering.

The province of Ontario is considering a "staggered" system of teaching school pupils. Some of the homework questions stagger the parents.

MOTHERS' DAY

We have our Victoria Day, Confederation Day, Labor Day, and other national and international holidays but none of them has the appeal or arouse the human feelings as does Mothers' Day. It has a sacredness and a wholesomeness all its own, coupled with cherished memories of childhood, home, and a mother's love. Next Sunday, May 14, is Mothers' Day. Let us hold it sacred to our mothers.

MOTHER OF MINE

My day's work is done, and mother of mine,
I'm dreaming of home and you.
I picture a garden or rose,
'Neath a sky of sunshine and blue.
I'm thinking of days that have ended;
Of evenings all hushed calm and still;
Of beautiful sunsets and glorious skies—
Of my home on Brimstone Hill.
I think of a rose-covered cottage;
Sweet memories are mingled with pain;
For there one I loved went gently away.

To journey back—never again.
Oh, mother of mine, when I left it
In far distance unties to roam
I did not quite realize how deep was
the love
I had for the velvet hills and home.
Oh, mother, I cannot help dreaming
Sweet memories I cherish them yet,
I can't lay them aside and then turn away.
Oh, my must I try to forget?
England has beauty and riches untold.
Blessings are showered on heart from above,
But how can that ease a home that is aching.

And how can it purchase one's unbounded love?
Tho' deep is the love that I have in my heart,
'Tis half divided in two.
One half goes out to a land far away,
The half that is left goes solely to you.
S'grieve not that I will hasten away,
And leave you alone to grieve and pine,
I stay with you here till my little sorrows are passed,
And then I'll go back to my home-land again.
I'll go back to a country of sunshine,
To visit and wonderful skies;
From the house on the hill I'll gaze far away
When the bloom of the day gently dies,
To a garden of roses and quiet,
'Neath a sky of crystalline blue.
I dwell on the memories of those whom I love,
Oh, mummy of mine, just-daddy and you.

—HAZEL BENNETT,
London, Eng.
(Secretary to Trade Commissioner for South Africa)

MATCHES

(By Robert Bell)

I have a box of matches and they go
To light the fire for warmth, a pipe
For peace,
A lamp for guidance, or the candle's
glow.
For friendliness when daylight
Is gone,
One may come to nothing—break in
two,
Or in ashes shed its scarlet cover;
Or scorch your fingers, burn the
carpet through,
Or lay a risk to the safety of a town.
So the rare spot, and vanish, one
by one.
Brief interludes to happiness or
grief.
What shall I do when all of them
are gone?
The matches are my years, the box
my life.

FEAR U. S. AND JAPAN MAY BE INVOLVED IN CONTROVERSY
TOKIO, May 6.—A controversy involving the United States and Japan was predicted today as a result of the alleged expulsion of 112 Japanese laborers from the island of Guam.

The newspaper Kokumin Shinbun attacked what it described as the "contraband order" of Capt. Edmund Spence Root, the American Governor of Guam, "deporting" the Japanese. It said the governor refused to renew residence permits for the laborers which expired after six months.

FEAR HITLERS
LONDON, May 8.—In Hitler's Near government out to destroy the disarmament conference? asks the Times editorial today, remarking on the proposals put forward in Germany for military training of the whole nation. The Times says that if this is the Berlin chamber's plan then it may as well be admitted at once that the disarmament conference is doomed.

PARIS GOVERNMENT DECLINES TO PAY THE WAR DEBTS
PARIS, May 8.—The French cabinet today unanimously took a stand against the payment to the United States of the default interest due last December 15 without a guarantee of a moratorium on the June 15 debt payment.
This decision was taken in a three-hour session, in which the government vassed out daily the suggestion for a lump sum settlement of the war debt to America, and other proposals.

PLAN TO PLACE 3,000,000 MEN BACK TO WORK IN U. S.

WASHINGTON, May 8.—A giant plan designed to put at least three million men back to work in the industry of the United States on a specified date has been revealed here yesterday. It was reported as having the backing of 25 chosen representatives of 66,000 manufacturers.

Meanwhile friends of the Roosevelt administration had almost completed the draft of a bill to be presented to the president for relaying the anti-trust laws so that private enterprise by regulating itself, could thrive in combined strength against the will of the depression.

While not integrally a part of the legislation, the program for calling upon industry voluntarily to put its workers back to work, which is intended as a supplementary attack on the present economic conditions which would move alongside the government's public works program.

CANADA SEEMS TO EXTEND WHEAT MARKET IN FRANCE
PARIS, May 6.—Wider markets for Canadian wheat are understood, will form one of the most Franco-Canadian trade treaty which is to be submitted to the Dominion parliament for approval.

Since Canada terminated the treaty with France, Canadian wheat has been under the maximum French tariff, the result, according to French returns, was diminution of imports of Canadian wheat of 30 per cent.

The drop would have been still greater had the French miller not needed the hard Canadian wheat for mixing, especially as last year French millers had a good wheat crop. It is now hoped that under a new treaty imports of Canadian wheat will return to at least the old level.

WORLD WHEAT CONFERENCE OPENS IN GENEVA
OTTAWA, May 1.—If the pound sterling should be stabilized at approximately the value it has at present in relation to the Canadian dollar, the list of products which will be brought within the scope of the government's stabilization fund may be substantially broadened.

Prime Minister R. B. Bennett held out this prospect last night during discussion of the final stages of the budget.
In his earlier remarks respecting appeals for additions to the list of products benefited by the fund, he had observed that "the door was not closed." Mr. Bennett recalled. He then had in mind the possibility of a rise in the value of the pound in relation to the dollar, but had not expected it to come so soon.

The fund proposed to pay Canadian exporters to British markets the difference between the value of the pound sterling at the time the sale and \$4.60 providing the value was below that level in its relation to the Canadian dollar.

The fund, as originally announced, would apply only to the following commodities: animals, meats, poultry, fresh fish, tobacco, cheese, milk products, canned fruits, canned vegetables, maple products, eggs, and honey.

Apples and other fresh fruit, were among the commodities respecting which the government might be called upon to "arrive at another conclusion," dependent upon conditions of crops this fall, Mr. Bennett said.

WOULD USE SURPLUS CROP FOR MOTOR FUEL
WASHINGTON, May 6.—The House, plan for better times, in detail, is that Congress pass a law providing that all petroleum products that may be used as fuel in internal combustion engines shall be blended 10 per cent by volume with ethyl alcohol, made from agricultural products grown within continental United States.

This country uses approximately 17 billion gallons of motor fuel yearly (which comes under our definition). If 10 per cent of this were ethyl alcohol that would mean a market for one billion seven hundred million gallons of ethyl alcohol. Translated into corn that would mean a market for six hundred eighty million bushels. Translated into wheat, it would mean about seven hundred and fifty million bushels.

The Japanese Garden
Gordon Lindsay Smith

Common Errors
Two of the most common errors in gardening are, sowing seed too deep and allowing plants to grow too close together. As a general rule, the diameter of the seed is the proper depth to sow. This means sowing, planting the lettuce, turnips, and radish in to the soil, but covering the larger seeds such as corn, beans, peas, and beets to a depth of about an inch. With flowers, the finer sorts like alyssum and poppies should be sown on top of the ground and barely pressed in. Some of these very fine seeds are best mixed thoroughly with a little dry sand and the mixture sown, to avoid sowing too thick. Bulbs and tubers such as potatoes, gladioli and dahlias are sown in from six to eight inches apart. It should be thinned to stand with the ordinary type plants. When fully grown this will be a bushy plant about 18 inches high and almost the same across, therefore it should be thinned to stand about ten inches apart. Not only will such thinning result in more plants but they will also be more bushy and symmetrical. Even the growing leaf lettuce and cauliflower should be thinned, though an increase in plants will be enough. Beans, peas, and corn being big seeds are sown at the proper distance, at least three inches apart and in the case of corn, six inches apart. Two inches apart will be enough for beets and carrots. Of course this does not alter the development, but when the plants begin to fill up the space, half of them should be taken out and used.

Equipment
Gardening is very inexpensive in the way of necessary equipment. With a rake, small hoe and a spade one can accomplish wonders, though if the place is a large one, it is advisable to have a few more tools. At this time of year, a string and a few stakes for making straight rows will come in handy. One of the small garden tractors which cultivate, weed, and even plow will take the place of a horse. Later on the lawn, or about one-fourth of the corn crop and more than seven-eighths of the wheat crop.

Rhizy alcohol can be made from all of agricultural products: corn, wheat, oats, rye, barley, rice, potatoes, beets, apples, grapes, etc. Thus the surplus of any growing area in the United States, wherever located and whatever the product, may be taken care of by this method. There will be no artificial allocation or reduction of acreage. (The surplus will not exist.)

Fourteen countries have legislation to require the use of the ethyl alcohol made from domestic agricultural products, the percentage being as low as three per cent in England and 25 per cent in Germany. Tests made by the experiment station of the Iowa State College show that motor fuel containing alcohol gives more power and has greater anti-knock properties than ordinary gasoline.

WORLD WHEAT CONFERENCE OPENS IN GENEVA
GENEVA, May 9.—Exploration of the world wheat situation as their objective, representatives of Canada, United States, Australia, and Argentina prepared tonight for the opening of the International wheat conference tomorrow.
Hon. G. Howard Ferguson, minister to London, and Dr. W. A. Riddell, Canada's permanent representative at the League of Nations, presented Canada's grain problems and the suggested solutions.

The discussion here will be preliminary to the world economic conference at London next week.
Chechnuts, almonds, filberts, walnuts, pecans and other varieties of nuts have been successfully grown in the Okanagan Valley, British Columbia.

THE PICTURES

"Arrowsmith," starring the great English actor, Ronald Colman, will play at the Orpheum Theatre Friday and Saturday of this week, April 13 and 14. "Arrowsmith" is from the story read novel of the same name by Sinclair Lewis, Nobel prize winner. It tells the extremely human story of a young surgeon. His achievements held humanity in awe, his genius wrought a miracle that saved the lives of nations; they crowned him with glory till—all the honors—all the tributes—all the praise in the world could not compensate him for the love and life of the woman he lost in his hour of triumph.

The theatre management is pleased to announce the re-booking of "Quilts Through," which could not be run at an earlier date because of damage by fire. "Smiley Through," starring Norma Shearer, Frederic March, and Leslie Howard, will play in Bassano Wednesday and Saturday of next week, May 12 and 13. There will be no program Friday night of next week, May 12. The theatre will be closed on that date so as not to conflict with the choral concert which will be held in Knox Church.

LATHOM NEWS

LATHOM, May 9—Mr. and Mrs. Irvine and Mildred Wurstler, of Lathom, were visitors at the home of Mr. and Mrs. L. L. Lathom, of Lathom, on Saturday.

Mr. L. L. Lathom is spending a few days with the Wostenko family. He will soon leave for Saskatoon where he will remain a couple of months with friends.

The young ladies of Lathom are organizing a softball team. Misses Jenny Wostenko and Hilda Lathom were visitors at the home of Mr. and Mrs. L. L. Lathom, of Lathom, on Sunday.

Mike Silenco has moved from Lathom to Southport, where he will reside for a few weeks.

A number of Lathom folks have been enjoying themselves fishing at the Hingham and Lake Lake.

Martha Salmond and Tom Bate were callers at the Erickson home Saturday evening.

The Lathom family were visitors at the Ross home Friday evening.

A number of the Lathom children were in swimming last week.

Mrs. D. Wostenko sent the week-end in Calgary with friends.

LARGE ATTENDANCE

AT CHANCELLOR W. L. MEYER

CHANCELLOR, May 4—On Thursday afternoon the Memorial Hall at Chancellors was filled to capacity by the Chancellors W. L. and guests from Hanger and Hanger in honor of the annual commemoration of Mother's Day.

The day held with the Chancellors W. L. and guests from Hanger and Hanger in honor of the annual commemoration of Mother's Day.

The program closed with community singing. A delicious lunch was served, and all remained for a social hour.

The Chancellors W. L. deserve the greatest credit for the efficient manner in which the afternoon's entertainment was conducted.

INTEREST ON FARM LOANS

THE CTV TO 7 PER CENT

MONTREAL, May 9—Bankers here last night confirmed statements that a reduction of one-half of one per cent in the six per cent interest rate on bank loans had been put into effect to a varying extent.

Question of applying the reduction is left with the individual banks, it was explained, each bank taking action on individual cases. Although the reduction was effective on practically all municipal obligations and commercial paper, it was impossible to gain any estimate of how commercial banks had been reduced to 7 per cent. The reduction also applied to municipal obligations and commercial paper throughout Canada.

HINTON & HAMAR DISSOLVE

GARAGE PARTNERSHIP

The Hinton & Hamar partnership in the Auto Camp Garage has been dissolved. Mr. Hinton will carry on business as usual, and declares his intention of continuing twenty-four hour service.

MADE IN ALBERTA WEEK

This is "Made-in-Alberta Week." May 7 to 14, and in being observed in all parts of the province by addresses and displays of made in Alberta products.

A brief address on the subject was given by A. G. Bond at the Board of Trade meeting last Wednesday, and the board passed a resolution going on record, endorsing the campaign.

A variety of products are now being made in Alberta, including men's wear, garments, paint, soap, bleaching, shaving cream, and tooth paste, ginger ale, sugar, baking powder, cheese, woolen goods, carded meat, peanut butter, cigars, mattresses, slawmaw and pottery, bricks, and other goods.

BOWLING

Jim Hamilton made the highest score so far in the Canadian five pin bowling contest at Foster's bowling alley last week when he rolled 152 Hamilton just scored 131.

Bill McKeown, who scored 131, Mrs. A. McKee scored 91 in the Canadian game for ladies to win first prize, and Miss Grace Scherl took last prize in the American game with 121.

HUSAR NOW GETTING MAIL

BY STAGE FROM ROCKYFORD

Since the C.P.R. changed the train service on the branch line from semi-weekly to weekly, the towns of Hanger, Hanger, and Chancellors have been getting mail twice a week by stage. Mail is delivered and also leaves these points Monday and Friday, the stage route running from Rockyford to Hanger.

It is understood that the government is calling for tenders to carry mail over this route three times a week, and is also asking for twice a week tenders.
